Property Search Guide
You can search a property for existing permits and violations using the Property search in the Search Menu

Searching by Parcel Number
1. Click “Property” in the Search menu
2. Enter the 12 digit short parcel number (do not enter hyphens) in the Parcel Number field
3. Click the “Submit” button

Searching by Address
1. Click “Property” in the Search menu
2. Enter the property address in the address fields
3. Click the “Submit” button
4. If more than one property is found, choose the correct property
Search Results
A list of all permits, projects, complaints, etc. that are in our database is returned in the list.

If a property is located within a municipality, the municipality’s contact information is shown above the results list. You can contact the municipality for permit/violation data on the parcel.

You can print the result list or export the list to Excel Spreadsheet using “Export to Excel”
